`nginx` Address Space

From the perspective of system call filters

Process Address Space (`addrfilter`)

libz	zero	ld-linux
libssl	nginx	libcrypto
libpcre2	libc	libcrypt

10 different system call filters: one for each box

Process Address Space (`seccomp`)

nginx
zero
ld-linux
libcrypto
libcrypt
libc
libcrep2
libssl
libz

One global system call filter for the entire process
